

# PET WELLNESS ON WHEELS

Improving access to care through  
mobile community medicine

care4paws.org

Having access to spaying/neutering and veterinary care improves the lives of pets and their people. Yet, for families in underserved and remote communities, gaining that access is difficult—or often impossible—unless pet wellness services are brought TO a family's neighborhood.

COMMUNITY-BASED CARE

A **mobile veterinary unit** allows you to provide free and affordable spay/neuter surgeries, basic medical care and vaccine clinics directly in the community, assisting the families most in need of accessible wellness services.

It is an effective outreach tool that builds relationships and helps reshape the future of animal welfare in marginalized communities.

## Benefits of going mobile

- 🐾 Eliminate common challenges, such as:
  - Financial strains
  - Lack of transportation
  - Language and cultural barriers
- 🐾 Reach more pet families in high-need areas
- 🐾 Build trusting relationships
- 🐾 Increase visibility for your brand and services

CRITICAL SERVICES EN ROUTE

C.A.R.E.4Paws' **Mobile Community Medicine & Spay/Neuter Outreach program** works in underserved areas of California's Santa Barbara and San Luis Obispo counties, curbing pet overpopulation and ensuring pets stay with their people for life.

## Our free and low-cost services include:

- 🐾 Walk-in Pet Wellness Clinics with vaccines, flea treatment, dewormer, microchips and nail trims
- 🐾 Spay/neuter surgeries
- 🐾 Dental care and mass removals
- 🐾 Wellness exams and bloodwork
- 🐾 Treatment for wounds and skin, ear and eye infections

## Sources of revenue

- 🐾 Low-cost fees for services
- 🐾 Foundation and government grants
- 🐾 Individual donations
- 🐾 Business sponsorships

## Capitalize on collaborations!

Partner with other animal groups and shelters, pet service providers, human welfare agencies, community centers, foodbanks and youth groups to broaden your reach.

Our impact = animal welfare shelter intake numbers

## Growing our clinic footprint!

	2022	2020	2019	2012
Free spay/neuter surgeries	2,340	2,000	1,300	150
Pets helped with medical care	1,800	1,700	1,170	100
Vaccine clinic services	15,000	12,000	7,000	1,000
Clinic days hosted	240	190	140	55

C.A.R.E.4Paws' Mobile Community Medicine & Spay/Neuter Outreach program is the only one of its kind on California's Central Coast.

Since 2012, the program has been growing every year and now assists more than 15,000 dogs and cats with critical wellness services annually.

**ASK US HOW!** You can build a successful, sustainable mobile community medicine program without a huge staff and/or budget.
